COLOR DESCRIPTION

~~20" wide base and face flush, 12" deep base, square back top and~~
The monument itself is granite, the basic color being just a little
darker than #14. You will notice from the photo that it is not one smooth
color, there are darker particles in this stone which give it a slightly rough
appearance. The map is #15, the darker sketching on the map and the borders
around it are a cross between 15 and 16. Brighten up the trees in the
background considerably-they are much too dark, and be sure to show some sky,
a little more than the photo if possible. Bring out inscription at base of
monument.
